

# ITI Quiz - 08-Feb-2026 06:38 PM

Q. ID: ITISKILL0647DP | February 2026

64.29% 9 / 14

Student Name	Basavaraj	Access Code	1308
Attempt No.	#1	Completion Time	06:47 PM
Rank	#1	Total Questions	14

9 SCORE

14 MAX MARKS

9 CORRECT

5 INCORRECT

## Answer Review

Q1 **CORRECT** What is the possible cause of high fuel consumption?

- A. High fuel in the tank
- B. Low fuel in the tank
- C. Wrong injection timing
- D. High compression pressure

Q2 **INCORRECT** What is the possible cause of engine runs erratically?

- A. Weak compression
- B. High compression
- C. Air lock in fuel system
- D. Poor oil circulation

Q3 **INCORRECT** Why a diesel engine starts but not running idle?

- A. Low fuel level in tank
- B. Low charged battery
- C. Clogged nozzle
- D. No air in fuel system

Q4 **CORRECT** What is the mechanical cause of engine does not start?

A. Radiator cap blocked

B. Fuel tank cap vent hole blocked

C. Oil filter blocked

D. Oil pump gear worn out

Q5 **CORRECT** What is the effect of defective injector?

A. Engine does not start

B. Engine over heated

C. High fuel pressure

D. High oil pressure

Q6 **CORRECT** What is the effect of defective oil pump?

A. Engine seized

B. High oil pressure

C. Low oil pressure

D. Detonation occur

Q7 **CORRECT** What is the cause for high fuel consumption in diesel engine?

A. Oil level high

B. Piston ring worn-out

C. Fuel level in tank is high

D. High compression pressure

Q8 **CORRECT** What is to be checked up if the engine overheats?

A. Hydraulic fluid level

B. Fuel level

C. Coolant level

D. Electrolyte level

Q9 **CORRECT** What is to be checked for low power generation of engine?

A. Water level

B. Clogged oil filter

C. Battery condition

D. Clogged air cleaner

Q10 **INCORRECT** What is the cause for high oil consumption?

A. Coolant level

B. Clogged oil filter

C. Clogged air cleaner

D. Weak compression

Q11 **INCORRECT** What is reason for low oil pressure?

A. Oil level is high

B. Clogged air filter

C. Clogged oil filter

D. Defective pressure release valve

Q12 **CORRECT** What is the cause for engine fails to start?

- A. Defective oil pump
- B. Defective thermostat
- C. Defective water pump
- D. Defective starter motor

Q13 **CORRECT** What is the effect of discharged battery?

- A. Engine does not crank
- B. Abnormal noise in the engine
- C. Engine back fire
- D. Air lock in the fuel system

Q14 **INCORRECT** Which is the cause for high oil consumption?

- A. Low oil level
- B. Oil filter clogged
- C. Oil viscosity high
- D. Worn-out valve guides
