

Student: Abhishek

Score: 9/10 (90.00%)

Code: 1084

1. What is the possible cause of engine runs erratically?

- A) Weak compression B) High compression
C) Air lock in fuel system (Correct) D) Poor oil circulation

2. Why a diesel engine starts but not running idle?

- A) Low fuel level in tank (Incorrect) B) Low charged battery
C) Clogged nozzle D) No air in fuel system

3. What is the mechanical cause of engine does not start?

- A) Radiator cap blocked **B) Fuel tank cap vent hole blocked (Correct)**
C) Oil filter blocked D) Oil pump gear worn out

4. What is the effect of defective injector?

- A) Engine does not start (Correct)** B) Engine over heated
C) High fuel pressure D) High oil pressure

5. What is the effect of defective oil pump?

- A) Engine seized (Correct)** B) High oil pressure
C) Low oil pressure D) Detonation occur

6. What is the cause for high fuel consumption in diesel

engine?

- A) Oil level high **B) Piston ring worn-out (Correct)**
C) Fuel level in tank is high D) High compression pressure

7. What is to be checked for low power generation of engine?

- A) Water level B) Clogged oil filter
C) Battery condition **D) Clogged air cleaner (Correct)**

8. What is the cause for high oil consumption?

- A) Coolant level B) Clogged oil filter
C) Clogged air cleaner **D) Weak compression (Correct)**

9. What is the cause for engine fails to start?

- A) Defective oil pump B) Defective thermostat
C) Defective water pump **D) Defective starter motor (Correct)**

10. Which is the cause for high oil consumption?

- A) Low oil level B) Oil filter clogged
C) Oil viscosity high **D) Worn-out valve guides (Correct)**
