

ITI Quiz - 08-Feb-2026

06:38 PM

Q. ID: ITISKILL0647DP

February 2026

Question Paper

Duration: 30 Mins

Total Marks: 14

ID: ITISKILL0647DP

Student Name: _____ Roll No: _____

1. Which is the cause for high oil consumption?

- A) Oil filter clogged
- B) Low oil level
- C) Worn-out valve guides
- D) Oil viscosity high

2. What is the effect of discharged battery?

- A) Air lock in the fuel system
- B) Engine does not crank
- C) Abnormal noise in the engine
- D) Engine back fire

3. What is to be checked up if the engine overheats?

- A) Fuel level
- B) Coolant level
- C) Electrolyte level
- D) Hydraulic fluid level

4. What is the cause for high oil consumption?

- A) Clogged air cleaner
- B) Clogged oil filter
- C) Weak compression
- D) Coolant level

5. What is the effect of defective oil pump?

- A) Detonation occur
- B) High oil pressure
- C) Engine seized
- D) Low oil pressure

6. What is the possible cause of engine runs erratically?

- A) Weak compression
- B) Air lock in fuel system
- C) High compression
- D) Poor oil circulation

7. What is reason for low oil pressure?

- A) Defective pressure release valve
- B) Oil level is high
- C) Clogged air filter
- D) Clogged oil filter

8. Why a diesel engine starts but not running idle?

- A) No air in fuel system
- B) Low charged battery
- C) Clogged nozzle
- D) Low fuel level in tank

9. What is to be checked for low power generation of engine?

- A) Clogged air cleaner
- B) Clogged oil filter
- C) Water level
- D) Battery condition

10. What is the possible cause of high fuel consumption?

- A) High compression pressure
- B) Low fuel in the tank
- C) Wrong injection timing
- D) High fuel in the tank

11. What is the effect of defective injector?

- A) Engine over heated
- B) High fuel pressure
- C) Engine does not start
- D) High oil pressure

12. What is the mechanical cause of engine does not start?

- A) Oil filter blocked
- B) Fuel tank cap vent hole blocked
- C) Oil pump gear worn out
- D) Radiator cap blocked

13. What is the cause for high fuel consumption in diesel engine?

- A) Piston ring worn-out
- B) Fuel level in tank is high
- C) High compression pressure
- D) Oil level high

14. What is the cause for engine fails to start?

- A) Defective oil pump
- B) Defective water pump
- C) Defective starter motor
- D) Defective thermostat
