

Duration: 30 Mins

Total Marks: 20

Q.ID: ITISKILL0764NO

1. More harmful in place of harmful.

A) Water vapour	B) Carbon mono oxide
C) Oxygen	D) Carbon di oxide

Answer: B) Carbon mono oxide

2. What is the effect of air borne dust in workshop?

A) Throat infection	B) Diarrhoea
C) Rise in blood pressure	D) Dehydration

Answer: A) Throat infection

3. Which type of personal protection recommended to handle loads with rough surfaces and pointed projections?

A) Leather gloves	B) Rubber gloves
C) Paper gloves	D) Polythene gloves

Answer: A) Leather gloves

4. Which type of energy conservation opportunity involves stopping of water leakage points?

A) Extra major energy conservation opportunities	B) Medium energy conservation opportunities
C) Major energy conservation opportunities	D) Minor energy conservation opportunities

Answer: D) Minor energy conservation opportunities

5. Which factor isolate the fire from oxygen by blanketing?

A) Smothering	B) starving
C) Misfiring	D) Cooling

Answer: A) Smothering

6. Which gas is harmful to human health?

A) Carbon-di-oxide	B) Water Vapour
C) Nitrogen	D) Carbon- monoxide

Answer: D) Carbon- monoxide

7. Which is the motive of occupational health and safety?

A) Minimising productivity	B) Decreasing the quality
C) Decrease employee morale	D) Reducing absentism

Answer: D) Reducing absentism

8. Which type of energy conservation comes under the replacement of old machineries?

A) Minor energy conservation opportunities	B) Medium energy conservation opportunities
C) Major energy conservation opportunities	D) Very minor energy conservation opportunities

Answer: C) Major energy conservation opportunities

9. Which is the major energy conservation opportunities?

A) Replacement of house hold appliance	B) Replacement machineries
C) Laps in house keeping	D) Stopping of leakage

Answer: B) Replacement machineries

10. Which is chemical Hazard?

A) Film resistor	B) Noise
C) Vibration	D) Radiation

Answer: D) Radiation

11. Which fire extinguisher used for flammable liquid fires?

A) CTC extinguisher	B) Halon extinguisher
C) Dry powder extinguisher	D) Water extinguisher

Answer: C) Dry powder extinguisher

12. Which type of occupational health hazards involves 'Toxic'?

A) Chemical hazard	B) Mechanical hazard
C) Physical hazard	D) Biological hazard

Answer: A) Chemical hazard

13. How to treat burns and scalds?

A) Covering with water	B) Blow hot air to the burnt hand
C) Blow cool air to the burnt hand	D) Covered hot water to the burnt hand

Answer: A) Covering with water

14. Which class of fire involves wood?

A) Class 'D' fire	B) Class 'A' fire
C) Class 'C' fire	D) Class 'B' fire

Answer: B) Class 'A' fire

15. Which is the occupational mechanical hazard?

A) Sickness	B) Unguarded machinery
C) Current leakage	D) Wrong layout of machinery

Answer: B) Unguarded machinery

16. Which distance is known as wheel base of the vehicle?

- A) Centre to centre distance between front and rear wheels
- B) Centre to centre distance between front wheels
- C) End to end distance between front and rear wheels
- D) Centre to centre distance between rear wheels

Answer: A) Centre to centre distance between front and rear wheels

17. What type of safety covers the wearing of safety shoes in workshop?

- A) Personal safety
- B) Machine safety
- C) General safety
- D) Occupational safety

Answer: A) Personal safety

18. Which type of energy to minimize the waste without

affecting production?

- A) Manipulation of energy
- B) Modification of energy
- C) Utilization of energy
- D) Conservation of energy

Answer: D) Conservation of energy

19. Which is medium energy conservation opportunities?

- A) Replacement of existing house hold appliances
- B) Renovation of the old building
- C) House keeping
- D) Stopping of water leakage

Answer: A) Replacement of existing house hold appliances

20. Which is toxic in the automobile workshop?

- A) Used lubricant
- B) Paper wrappers
- C) Old bearings
- D) Old washer, bolts and nuts

Answer: A) Used lubricant
