

Student Name: \_\_\_\_\_

Roll No: \_\_\_\_\_

1. Which method is used for blanketing with foam to extinguish the fire?

- A) Heating                      B) Cooling  
C) Smothering                D) Starving

2. What is the shape of prohibition sign?

- A) Circular                      B) Triangular  
C) Square                        D) Rectangular

3. Which step is followed for treating a person from electric shock?

- A) Provide water                B) Move the victim to a ventilated place  
C) Keep the victim cold        D) Cover the victim with a coat

4. Which is the maximum size of drill bit used in electrical hand drilling machine?

- A) 0.35 mm                      B) 3.5 mm  
C) 6.5 mm                        D) 1.5 mm

5. What is the first step to rescue the person in electrical contact?

- A) Switch OFF power supply    B) Call the doctor  
C) Break the contact              D) Pull the person from electrical contact

6. Which factor influences the severity of electrical shock?

- A) Very low DC voltage        B) Level of current in micro ampere  
C) Duration of current passing    D) Person receives the shock

7. Which class of fire is classified involving metals?

- A) Class D                        B) Class C  
C) Class B                        D) Class A

8. Which tool is used for seaming the funnel like taper?

- A) Blow horn stake              B) Vices  
C) Hatchet stake                D) Angle steel

9. What is the shape of warning sign board?

- A) Square shape                B) Triangular shape  
C) Hexagonal shape            D) Circular shape

10. Which angle is checked by the try square?

- A) 75 Degree                      B) 90 Degree  
C) 45 Degree                      D) 60 Degree

11. What is the purpose of wood rasp file?

- A) 90 Degree corners            B) Finishing flat edges  
C) Preliminary rough work    D) Cutting metals

12. Which type of toe caps are used to avoid crushing of feet at the time of shifting equipments?

- A) Steel toe caps                B) Leather toe caps  
C) Plastic toe caps               D) Rubber toe caps

13. Which fire extinguisher is used to put off class A type of fire?

- A) Jet of water                    B) Foam type  
C) Dry powdered                D) Carbon-di-oxide

14. What is the reason for electric fire?

- A) Overloading                    B) Proper earthing  
C) Deviation                      D) Open circuit

15. What is the use of screw driver?

- A) Tighten or loosen rivets    B) Hold the screws  
C) Tighten or loosen bolts      D) Tighten or loosen screws

16. Which material is used for making instrument cabinets?

- A) Wood                            B) Sheet metal  
C) Plastic                        D) Hard rubber

17. Which artificial respiration method to be avoided to a person with abdomen injury?

- A) Nose-to-mouth method    B) Mouth-to-mouth method  
C) Schafer's method            D) Mouth-to-nose method

**18.** What is the shape of mandatory signs?

- A) Rectangular
  - B) Circular
  - C) Square
  - D) Triangular
- 

**19.** Which fire extinguisher is used to put off class C type of fire?

- A) Jet of water
- C) Dry powdered

- B) Foam type
  - D) Carbon-di-oxide
- 

**20.** How the gas and liquefied gases are classified

- A) Class A fire
- C) Class D fire

- B) Class C fire
  - D) Class B fire
-
