1. What is the possible cause of high fuel consumption?

- A) High fuel in the tank B) Low fuel in the tank
C) Wrong injection timing (Correct) D) High compression pressure

2. What is the possible cause of engine runs erratically?

- A) Weak compression B) High compression
C) Air lock in fuel system (Correct) D) Poor oil circulation

3. Why a diesel engine starts but not running idle?

- A) Low fuel level in tank B) Low charged battery
C) Clogged nozzle (Correct) D) No air in fuel system

4. What is the mechanical cause of engine does not start?

- A) Radiator cap blocked **B) Fuel tank cap vent hole blocked (Correct)**
 C) Oil filter blocked D) Oil pump gear worn out

5. What is the effect of defective injector?

- A) Engine does not start (Correct)** B) Engine over heated
 C) High fuel pressure D) High oil pressure

6. What is the effect of defective oil pump?

- A) Engine seized (Incorrect)** B) High oil pressure
 C) Low oil pressure (Incorrect) D) Detonation occur

7. What is the cause for high fuel consumption in diesel engine?

- A) Oil level high **B) Piston ring worn-out (Correct)**
 C) Fuel level in tank is high D) High compression pressure

8. What is to be checked up if the engine overheats?

- A) Hydraulic fluid level B) Fuel level
C) Coolant level (Correct) D) Electrolyte level

9. What is to be checked for low power generation of engine?

- A) Water level B) Clogged oil filter
 C) Battery condition **D) Clogged air cleaner (Correct)**

10. What is the cause for high oil consumption?

- A) Coolant level B) Clogged oil filter (Incorrect)
 C) Clogged air cleaner **D) Weak compression**

11. What is reason for low oil pressure?

- A) Oil level is high B) Clogged air filter
C) Clogged oil filter (Incorrect) **D) Defective pressure release valve**

12. What is the cause for engine fails to start?

- A) Defective oil pump B) Defective thermostat
 C) Defective water pump **D) Defective starter motor (Correct)**

13. What is the effect of discharged battery?

- A) Engine does not crank** B) Abnormal noise in the engine
 C) Engine back fire D) Air lock in the fuel system (Incorrect)

14. Which is the cause for high oil consumption?

- A) Low oil level B) Oil filter clogged
 C) Oil viscosity high **D) Worn-out valve guides (Correct)**
