

# ITI Quiz - 06-Mar-2026

## 06:22 PM

Q. ID: ITISKILL2168IZ

March 2026

Question Paper

Duration: 30 Mins

Total Marks: 14

ID: ITISKILL2168IZ

Student Name: \_\_\_\_\_ Roll No: \_\_\_\_\_

1. Why a diesel engine starts but not running idle?

- A) Low fuel level in tank
- B) Clogged nozzle
- C) Low charged battery
- D) No air in fuel system

2. What is the possible cause of high fuel consumption?

- A) High fuel in the tank
- B) High compression pressure
- C) Low fuel in the tank
- D) Wrong injection timing

3. What is the effect of defective oil pump?

- A) Low oil pressure
- B) High oil pressure
- C) Engine seized
- D) Detonation occur

4. What is the possible cause of engine runs erratically?

- A) Weak compression
- B) High compression
- C) Poor oil circulation
- D) Air lock in fuel system

5. What is to be checked up if the engine overheats?

- A) Coolant level
- B) Fuel level
- C) Hydraulic fluid level
- D) Electrolyte level

6. What is the effect of discharged battery?

- A) Abnormal noise in the engine
- B) Engine back fire
- C) Engine does not crank
- D) Air lock in the fuel system

7. What is the mechanical cause of engine does not start?

- A) Fuel tank cap vent hole blocked
- B) Radiator cap blocked
- C) Oil filter blocked
- D) Oil pump gear worn out

8. What is the effect of defective injector?

- A) Engine does not start
- B) High fuel pressure
- C) High oil pressure
- D) Engine over heated

9. Which is the cause for high oil consumption?

- A) Worn-out valve guides
- B) Low oil level
- C) Oil filter clogged
- D) Oil viscosity high

10. What is the cause for high oil consumption?

- A) Clogged air cleaner
- B) Coolant level
- C) Weak compression
- D) Clogged oil filter

11. What is to be checked for low power generation of engine?

- A) Clogged oil filter
- B) Battery condition
- C) Water level
- D) Clogged air cleaner

12. What is the cause for engine fails to start?

- A) Defective thermostat
- B) Defective starter motor
- C) Defective water pump
- D) Defective oil pump

13. What is the cause for high fuel consumption in diesel engine?

- A) Oil level high
- B) High compression pressure
- C) Fuel level in tank is high
- D) Piston ring worn-out

14. What is reason for low oil pressure?

- A) Oil level is high
- B) Clogged air filter
- C) Clogged oil filter
- D) Defective pressure release valve
