

Student Name: \_\_\_\_\_ Roll No: \_\_\_\_\_

1. What is the standard colour code used for identifying the bin for the metal waste material?

- A) Green                      B) Violet  
C) Red                         D) Blue

2. What is the normal lip clearance angle for standard drill?

- A) 8 Degree - 12 Degree      B) 2 Degree- 4 Degree  
C) 5 Degree - 7 Degree      D) 13 Degree - 16 Degree

3. What is the specification for shape of file?

- A) Cut                         B) Grades  
C) Length                    D) Cross section

4. Which angle is preventing the cutting edge from rubbing action?

- A) Rake angle                B) Clearance angle  
C) Point angle              D) Web angle

5. Which one is the cause for hazard in personal safety?

- A) Buttons fastened        B) Safety boots  
C) Long hair                D) Sleeve tightly rolled

6. What is the drill point angle for drilling brass?

- A) 118 Degree                B) 120 Degree  
C) 140 Degree                D) 130 Degree

7. Which safety practice refers, Do not wear the ring?

- A) Machine safety         B) General safety  
C) Road safety              D) Personal safety

8. Which one is the golden hours related to first aid?

- A) First 20 minutes         B) First 30 minutes  
C) First 15 minutes         D) First 45 minutes

9. What is the correct sequence of the operation of a simple fire extinguisher?

- A) Sweep Aim pull and squeeze      B) Pull, Aim squeeze & sweep  
C) Squeeze aim pull and sweep      D) Aim pull sweep and squeeze

10. Which one belongs to team work?

- A) Soft skill                      B) Knowledge  
C) Hard skill                      D) Technical skill

11. What is the expanded form of ABC in first aid?

- A) Airway, blood and circulation      B) Aspiration, breathing and circulation  
C) Aspiration, blood and circulation      D) Airway, breathing and circulation

12. Which angle determines the rake angle at the cutting edge of twist drill?

- A) Point angle                      B) Helix angle  
C) Wedge angle                      D) Clearance angle

13. What is the material of files?

- A) Cast iron                      B) Low alloy steel  
C) High carbon steel                      D) Mild steel

14. Which gas is used in Halon extinguisher?

- A) Carbon tetrachloride      B) Hydrogen  
C) Carbon monoxide         D) Carbon dioxide

15. Which victim has given CPR immediately?

- A) Severe blood loss         B) Difficulty in breathing  
C) Dehydration                 D) Severe head injury
