

20. What is the ore of aluminium?

- A) Hematite                      B) Mallatite  
**C) Bauxite (Correct)**            D) Lemonite

21. Which property of a metal enables it by which it can be drawn out into wires under tension without rupture?

- A) Ductility (Correct)**            B) Malleability  
C) Hardness                      D) Brittleness

22. Which among the following is an insulator?

- A) Copper                        B) Aluminium  
C) Silver                         **D) Mica (Correct)**

23. Which alloy steel is used to make permanent magnets?

- A) Silicon steel                      B) Manganese steel  
C) Vanadium steel                   **D) Cobalt steel (Correct)**

24. Which insulator is used in over head lines?

- A) Mica                                B) Rubber  
C) P.V.C                               **D) Porcelain (Correct)**

25. Which insulating material is used for making switches?

- A) Porcelain                        B) PVC  
**C) Bakelite (Correct)**            D) Ebonite
