

Student: 000

Score: 8/14 (57.14%)

Code: 3951

1. What is the possible cause of high fuel consumption?

- A) High fuel in the tank      B) Low fuel in the tank  
**C) Wrong injection timing (Correct)**      D) High compression pressure

2. What is the possible cause of engine runs erratically?

- A) Weak compression (Incorrect)      B) High compression  
**C) Air lock in fuel system (Correct)**      D) Poor oil circulation

3. Why a diesel engine starts but not running idle?

- A) Low fuel level in tank (Incorrect)      B) Low charged battery  
**C) Clogged nozzle (Correct)**      D) No air in fuel system

4. What is the mechanical cause of engine does not start?

- A) Radiator cap blocked      **B) Fuel tank cap vent hole blocked (Correct)**  
 C) Oil filter blocked      D) Oil pump gear worn out

5. What is the effect of defective injector?

- A) Engine does not start (Correct)**      B) Engine over heated (Incorrect)  
 C) High fuel pressure      D) High oil pressure

6. What is the effect of defective oil pump?

- A) Engine seized (Correct)**      B) High oil pressure  
 C) Low oil pressure      D) Detonation occur

7. What is the cause for high fuel consumption in diesel engine?

- A) Oil level high      **B) Piston ring worn-out (Correct)**  
 C) Fuel level in tank is high      D) High compression pressure

8. What is to be checked up if the engine overheats?

- A) Hydraulic fluid level      B) Fuel level  
**C) Coolant level (Correct)**      D) Electrolyte level

9. What is to be checked for low power generation of engine?

- A) Water level      B) Clogged oil filter  
 C) Battery condition      **D) Clogged air cleaner (Correct)**

10. What is the cause for high oil consumption?

- A) Coolant level      B) Clogged oil filter (Incorrect)  
 C) Clogged air cleaner      **D) Weak compression (Correct)**

11. What is reason for low oil pressure?

- A) Oil level is high      B) Clogged air filter  
C) Clogged oil filter (Incorrect)      **D) Defective pressure release valve (Correct)**

12. What is the cause for engine fails to start?

- A) Defective oil pump      B) Defective thermostat  
 C) Defective water pump      **D) Defective starter motor (Correct)**

13. What is the effect of discharged battery?

- A) Engine does not crank (Correct)**      B) Abnormal noise in the engine  
 C) Engine back fire      D) Air lock in the fuel system

14. Which is the cause for high oil consumption?

- A) Low oil level      B) Oil filter clogged (Incorrect)  
 C) Oil viscosity high      **D) Worn-out valve guides (Correct)**
