

Duration: 30 Mins

Total Marks: 25

Q.ID: ITISKILL8190GX

1. Which is the occupational mechanical hazard?

- A) Wrong layout of machinery
- B) Current leakage
- C) Unguarded machinery
- D) Sickness

Answer: C) Unguarded machinery

2. Which factor isolate the fire from oxygen by blanketing?

- A) starving
- B) Misfiring
- C) Smothering
- D) Cooling

Answer: C) Smothering

3. How to treat burns and scalds?

- A) Blow hot air to the burnt hand
- B) Covered hot water to the burnt hand
- C) Covering with water
- D) Blow cool air to the burnt hand

Answer: C) Covering with water

4. Which gas is harmful to human health?

- A) Nitrogen
- B) Carbon- monoxide
- C) Carbon-di-oxide
- D) Water Vapour

Answer: B) Carbon- monoxide

5. Which class of fire involves wood?

- A) Class 'B' fire
- B) Class 'A' fire
- C) Class 'D' fire
- D) Class 'C' fire

Answer: B) Class 'A' fire

6. Which is toxic in the automobile workshop?

- A) Old washer, bolts and nuts
- B) Paper wrappers
- C) Used lubricant
- D) Old bearings

Answer: C) Used lubricant

7. Which is the major energy conservation opportunities?

- A) Stopping of leakage
- B) Replacement machineries
- C) Laps in house keeping
- D) Replacement of house hold appliance

Answer: B) Replacement machineries

8. Which distance is known as wheel base of the vehicle?

- A) End to end distance between front and rear wheels
- B) Centre to centre distance between rear wheels

- C) Centre to centre distance between front wheels
- D) Centre to centre distance between front and rear wheels

Answer: D) Centre to centre distance between front and rear wheels

9. What will you do if an electric shock victim unable to release his grip from the conductor?

- A) Make sure the power is turned off
- B) Place the victim on one side with head down
- C) Cover all burns with a dry loose dressing
- D) Ask a by stander to help you to move the victim

Answer: A) Make sure the power is turned off

10. What is first aid?

- A) It is the emergency medical treatment
- B) It is the intensive medical treatment
- C) It is the rule to assessing the treatment
- D) It is an immediate life saving treatment

Answer: D) It is an immediate life saving treatment

11. Which is the Biological hazard?

- A) Infection
- B) Smoking
- C) Poor discipline
- D) Sickness

Answer: A) Infection

12. Which part of body is bleeding profusely is considered serious and need professional attention?

- A) Wrist of the human body
- B) Thigh of the human body
- C) Knee of the human body
- D) Leg of the human body

Answer: A) Wrist of the human body

13. Which type of personal protection recommended to handle loads with rough surfaces and pointed projections?

- A) Leather gloves
- B) Polythene gloves
- C) Paper gloves
- D) Rubber gloves

Answer: A) Leather gloves

14. Which is chemical Hazard?

- A) Radiation
- B) Vibration
- C) Noise
- D) Film resistor

Answer: A) Radiation

15. Which type of energy conservation opportunity involves stopping of water leakage points?

- A) Minor energy conservation opportunities B) Medium energy conservation opportunities
C) Major energy conservation opportunities D) Extra major energy conservation opportunities

Answer: A) Minor energy conservation opportunities

16. What type of energy reduce consumption by replacing old bulb with new LED?

- A) Modification of energy B) Utilization of energy
C) Conservation of energy D) Manipulation of energy

Answer: C) Conservation of energy

17. Which is the motive of occupational health and safety?

- A) Reducing absentism B) Minimising productivity
C) Decrease employee morale D) Decreasing the quality

Answer: A) Reducing absentism

18. What type of safety covers the wearing of safety shoes in workshop?

- A) General safety B) Personal safety
C) Occupational safety D) Machine safety

Answer: B) Personal safety

19. How the waste oil is disposed?

- A) Throw the removed oil in the drain B) Keep in small containers in remote corners
C) Collect waste oil container and dispose to register vendors D) Hand over back to the customer

Answer: C) Collect waste oil container and dispose to register vendors

20. Which type of energy conservation comes under the

replacement of old machineries?

- A) Medium energy conservation opportunities B) Major energy conservation opportunities
C) Very minor energy conservation opportunities D) Minor energy conservation opportunities

Answer: B) Major energy conservation opportunities

21. More harmful in place of harmful.

- A) Carbon di oxide B) Oxygen
C) Water vapour D) Carbon mono oxide

Answer: D) Carbon mono oxide

22. Which class of fire involves liquefied gases

- A) Class A B) Class D
C) Class C D) Class B

Answer: D) Class B

23. Which fire extinguisher used for flammable liquid fires?

- A) Water extinguisher B) CTC extinguisher
C) Halon extinguisher D) Dry powder extinguisher

Answer: D) Dry powder extinguisher

24. Which type of energy to minimize the waste without affecting production?

- A) Utilization of energy B) Modification of energy
C) Conservation of energy D) Manipulation of energy

Answer: C) Conservation of energy

25. What is the effect of air borne dust in workshop?

- A) Throat infection B) Dehydration
C) Diarrhoea D) Rise in blood pressure

Answer: A) Throat infection
