

Duration: 30 Mins

Total Marks: 25

ID: ITISKILL8190GX

Student Name: _____ Roll No: _____

1. How the waste oil is disposed?

- A) Keep in small containers in remote corners
- B) Throw the removed oil in the drain
- C) Hand over back to the customer
- D) Collect waste oil container and dispose to register vendors

2. Which class of fire involves liquefied gases

- A) Class C
- B) Class A
- C) Class B
- D) Class D

3. How to treat burns and scalds?

- A) Covered hot water to the burnt hand
- B) Covering with water
- C) Blow hot air to the burnt hand
- D) Blow cool air to the burnt hand

4. Which part of body is bleeding profusely is considered serious and need professional attention?

- A) Knee of the human body
- B) Leg of the human body
- C) Thigh of the human body
- D) Wrist of the human body

5. Which is the motive of occupational health and safety?

- A) Decreasing the quality
- B) Minimising productivity
- C) Reducing absentism
- D) Decrease employee morale

6. Which is toxic in the automobile workshop?

- A) Paper wrappers
- B) Old washer, bolts and nuts
- C) Used lubricant
- D) Old bearings

7. More harmful in place of harmful.

- A) Carbon di oxide
- B) Oxygen
- C) Water vapour
- D) Carbon mono oxide

8. What is first aid?

- A) It is the emergency medical treatment
- B) It is an immediate life saving treatment
- C) It is the rule to assessing the treatment
- D) It is the intensive medical treatment

9. Which class of fire involves wood?

- A) Class 'C' fire
- B) Class 'D' fire
- C) Class 'A' fire
- D) Class 'B' fire

10. Which type of energy conservation opportunity involves stopping of water leakage points?

- A) Medium energy conservation opportunities
- B) Minor energy conservation opportunities
- C) Extra major energy conservation opportunities
- D) Major energy conservation opportunities

11. Which is the Biological hazard?

- A) Poor discipline
- B) Sickness
- C) Smoking
- D) Infection

12. Which type of energy to minimize the waste without affecting production?

- A) Conservation of energy
- B) Modification of energy
- C) Utilization of energy
- D) Manipulation of energy

13. Which type of energy conservation comes under the replacement of old machineries?

- A) Major energy conservation opportunities
- B) Medium energy conservation opportunities
- C) Minor energy conservation opportunities
- D) Very minor energy conservation opportunities

14. Which distance is known as wheel base of the vehicle?

- A) End to end distance between front and rear wheels
- B) Centre to centre distance between front and rear wheels
- C) Centre to centre distance between rear wheels
- D) Centre to centre distance between front wheels

15. Which gas is harmful to human health?

- A) Nitrogen
- B) Water Vapour
- C) Carbon- monoxide
- D) Carbon-di-oxide

16. Which type of personal protection recommended to handle loads with rough surfaces and pointed projections?

- A) Leather gloves
- B) Rubber gloves

C) Paper gloves

D) Polythene gloves

17. What will you do if an electric shock victim unable to release his grip from the conductor?

A) Place the victim on one side with head down

B) Cover all burns with a dry loose dressing

C) Ask a bystander to help you to move the victim

D) Make sure the power is turned off

18. Which is the major energy conservation opportunities?

A) Replacement machineries

B) Stopping of leakage

C) Laps in house keeping

D) Replacement of house hold appliance

19. What type of safety covers the wearing of safety shoes in workshop?

A) General safety

B) Occupational safety

C) Personal safety

D) Machine safety

20. Which fire extinguisher used for flammable liquid fires?

A) Halon extinguisher

B) Dry powder extinguisher

C) CTC extinguisher

D) Water extinguisher

21. Which is the occupational mechanical hazard?

A) Unguarded machinery

B) Sickness

C) Current leakage

D) Wrong layout of machinery

22. Which factor isolate the fire from oxygen by blanketing?

A) starving

B) Cooling

C) Misfiring

D) Smothering

23. Which is chemical Hazard?

A) Film resistor

B) Radiation

C) Vibration

D) Noise

24. What is the effect of air borne dust in workshop?

A) Rise in blood pressure

B) Throat infection

C) Diarrhoea

D) Dehydration

25. What type of energy reduce consumption by replacing old bulb with new LED?

A) Conservation of energy

B) Modification of energy

C) Manipulation of energy

D) Utilization of energy
