

Monthly Test

Q. ID: ITISKILL8842FB

November 2025

GOVT ITI KUKANOOR

Answer Key

Duration: 30 Mins

Total Marks: 10

Q.ID: ITISKILL8842FB

1. What is to be checked for low power generation of engine?

- A) Battery condition
- B) Clogged air cleaner
- C) Clogged oil filter
- D) Water level

Answer: B) Clogged air cleaner

2. What is the cause for high fuel consumption in diesel engine?

- A) Piston ring worn-out
- B) Oil level high
- C) High compression pressure
- D) Fuel level in tank is high

Answer: A) Piston ring worn-out

3. What is to be checked up if the engine overheats?

- A) Electrolyte level
- B) Hydraulic fluid level
- C) Coolant level
- D) Fuel level

Answer: C) Coolant level

4. What is reason for low oil pressure?

- A) Clogged oil filter
- B) Clogged air filter
- C) Defective pressure release valve
- D) Oil level is high

Answer: C) Defective pressure release valve

5. What is the mechanical cause of engine does not start?

- A) Oil filter blocked
- B) Fuel tank cap vent hole blocked
- C) Oil pump gear worn out
- D) Radiator cap blocked

Answer: B) Fuel tank cap vent hole blocked

6. Why a diesel engine starts but not running idle?

- A) Low charged battery
- B) No air in fuel system
- C) Clogged nozzle
- D) Low fuel level in tank

Answer: C) Clogged nozzle

7. What is the cause for high oil consumption?

- A) Clogged air cleaner
- B) Coolant level
- C) Weak compression
- D) Clogged oil filter

Answer: C) Weak compression

8. What is the possible cause of engine runs erratically?

- A) Poor oil circulation
- B) Air lock in fuel system
- C) High compression
- D) Weak compression

Answer: B) Air lock in fuel system

9. What is the effect of defective injector?

- A) High oil pressure
- B) Engine does not start
- C) High fuel pressure
- D) Engine over heated

Answer: B) Engine does not start

10. What is the effect of defective oil pump?

- A) High oil pressure
- B) Low oil pressure
- C) Detonation occur
- D) Engine seized

Answer: D) Engine seized
