

**Duration: 30 Mins****Total Marks: 24****Q.ID: ITISKILL9227R6**

1. Which device provide 25 mbps of band width an internet connection via cable?

- A) Modem                      B) Hub  
C) Switch                      D) Router

**Answer: A) Modem**

2. Who is introduced for PCI?

- A) HCL                          B) Dell  
C) Intel                          D) Lenovo

**Answer: C) Intel**

3. Which one is example of PCI devices?

- A) Network card              B) Hub  
C) Network switch            D) Router

**Answer: A) Network card**

4. What is the name for convert digital signal to analog signal?

- A) Demodulation              B) Bypass  
C) Modulation                 D) Encapsulation

**Answer: C) Modulation**

5. Which is used to configure computer peripherals?

- A) DIP switches                B) DMA  
C) I/O address                 D) Jumpers

**Answer: A) DIP switches**

6. What is the full form of ISA?

- A) Industry Standard Architecture      B) Industry Standard Address  
C) Indian Standard Architecture         D) Input Standard Address

**Answer: A) Industry Standard Architecture**

7. Which device is used for to send and receive data over telephone lines?

- A) Modem                        B) Router  
C) Switch                        D) Hub

**Answer: A) Modem**

8. Which transmission mode, the transmitter and the receiver use the same clock?

- A) Asynchronous                B) Character  
C) Communication               D) Synchronous

**Answer: D) Synchronous**

9. Which transmission mode used for, data is transmitted block by block?

- A) Analog                        B) Asynchronous  
C) Synchronous                 D) Digital

**Answer: C) Synchronous**

10. What is the full form of wi-fi?

- A) Wireless frequency         B) Wireless fidelity  
C) Wiring fidelity                D) Wiring Frequency

**Answer: B) Wireless fidelity**

11. What is the meaning of IRQ?

- A) Importance Request         B) Interrupt Request  
C) Input Request                D) Information Request

**Answer: B) Interrupt Request**

12. Which is used to describe the maximum oscillation rate of an electronic signal

- A) Baud rate                      B) Switch  
C) Hub                             D) Bit rate

**Answer: A) Baud rate**

13. What is the full form of IR in wireless communication?

- A) Infrared                        B) Innerred  
C) Inner range                  D) Infra range

**Answer: A) Infrared**

14. What is full form of AGP?

- A) Analog Grid Port              B) Analog Graphics Port  
C) Accelerated Graphics Port    D) Accelerated Grid Port

**Answer: C) Accelerated Graphics Port**

15. What is the full form of DSL in modem?

- A) Dual Signal Line              B) Digital Subscriber Line  
C) Dual Signal Layer             D) Digital Signal Layer

**Answer: B) Digital Subscriber Line**

16. Which transmission mode is also known as start-stop mode?

- A) Synchronous                 B) Asynchronous  
C) Character                      D) Communication

**Answer: B) Asynchronous**

**17.** What is the transmission speed of satellite communication method?

- A) 1 mbps to 10 mbps
- B) 50 mbps to 100 mbps
- C) 30 mbps to 40mbps
- D) 1 mbps to 3 mbps

**Answer: A) 1 mbps to 10 mbps**

**18.** What is the full form of DVR card

- A) Dual Visual Recorder
- B) Dual Video Reader
- C) Digital Visual Reader
- D) Digital Video Recorder

**Answer: D) Digital Video Recorder**

**19.** What is the full form of DMA?

- A) Digital Memory Access
- B) Direct Memory Adder
- C) Direct Memory Access
- D) Digital Memory Adder

**Answer: C) Direct Memory Access**

**20.** Which one network connection provide 1000 mbps band width?

- A) Hub
- B) Gigabit ethernet
- C) Gateway
- D) Router

**Answer: B) Gigabit ethernet**

**21.** Which transmission mode, two independent clocks are used on either side?

- A) Successive
- B) Protocol
- C) Asynchronous
- D) Synchronous

**Answer: C) Asynchronous**

**22.** What is the frequency range of satellite communication method?

- A) 5GHz -10GHz
- B) 11GHz -14GHz
- C) 4GHz - 6GHz
- D) 1GHz - 5GHz

**Answer: B) 11GHz -14GHz**

**23.** What is the full form of MbpS in modem?

- A) Mega binary per second
- B) Mega booting per second
- C) Mega bites per second
- D) Mega bytes per second

**Answer: D) Mega bytes per second**

**24.** What is the meaning of MODEM?

- A) Modern development machine
- B) Modulator and convertor
- C) Modern electronic machine
- D) Modulator and demodulator

**Answer: D) Modulator and demodulator**
